

CAAC @ NICC 联合论坛

(2019 June 28-30)

The fifth Chinese American Academy of Cardiology (CAAC)@ Ningxia International Cardiology Conference (NICC) symposium was organized by CAAC and NICC was held during June 28- 30, 2019 at Yinchuan International Convention Center, Yinchuan, Ningxia Hui Autonomous Region, China. The delegation of CAAC was led by Dr. Xiaofeng Yang and included outstanding scholars from several institutions in USA (Drs. Yabing,Chen/UAB, Tzung,HSIAI /UCLA, Bo Liu/UW-Madison, Nicholas E.S. SIBINGA /AECM, Hu Ying,SHEN /BCM, Huaizhu,Wu/BCM).The primary goal of this conference is to provide a forum for the timely exchange of information about new and emerging scientific research in cardiovascular diseases to Ningxia graduate students, translational and clinicians interested in molecular/cellular biology of cardiovascular diseases.

Conference Highlights:

Graduate students Seminar

- The graduate students of Ningxia medical University presented their current projects and disclosure the problems during research work
- The delegation of CAAC gave comments and suggestions to our current project.
- This event fostered dialogue and facilitate the exchange of ideas between senior scientists and local graduate students.

Feathered oral presentation

- The 13 translational cardiovascular scientists from USA and China presented their cutting-edge advances in the cardiovascular research.
- Information about new and emerging scientific research was directly delivered to the local cardiovascular scientists and physicians.

Special Lectures for local Cardiologist.

- Prof. Yabing Chen/UAB and Bo Liu/ UW-Madison gave keynote lectures to the physicians of General Hospital of Ningxia Medical University.
- The two professors shared their opinions on how to collaborate with basic scientists and advocate conducting translational research based on the specific clinical problems.
- The two professors encouraged physicians to apply for grants with indomitable spirit.

This event launched a splendid connection between local scientists and the senior scientific community and has become the “go to” meeting for intra- and interdisciplinary cross-fertilization of ideas and incorporation of new approaches in Ningxia province. We appreciate the organization and leadership of Prof. Xiaofeng,Yang of CAAC and the hospitality of Dr. Shaobin Jia’s team at Ningxia

Medical University and General Hospital of Ningxia Medical University for this event.

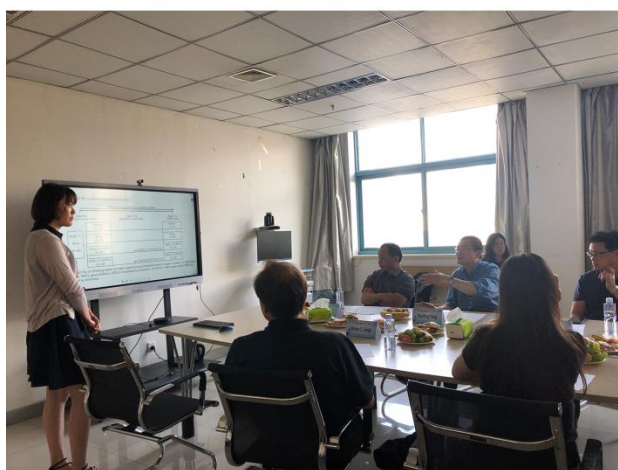

and is another successful event for improving the international collaboration of China-USA cardiovascular research.
